

**PRECAUTIONARY STATEMENTS:**  
HAZARDS TO HUMAN AND DOMESTIC ANIMALS –  
**CAUTION:** Harmful if absorbed through skin or swallowed. Causes moderate eye irritation. Avoid contact with skin, eyes or clothing. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco, or using the toilet.  
**NOTE:** This product contains a chemical known to the state of California to cause cancer.

FIRST AID

**IF IN EYES:** Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for further treatment advice. **IF ON SKIN, CLOTHES:** Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice. **IF SWALLOWED:** Call poison control center or doctor immediately for treatment advice. Have person sip a glass of water, if able to swallow. Do not induce vomiting unless told to do so by the poison control center or doctor. Do not give anything by mouth to an unconscious person. *Have the product container or label with you when calling a Poison Control Center or doctor or going for treatment.*

**DIRECTIONS FOR USE:**  
It is a violation of federal law to use this product in a manner inconsistent with its labeling.

For use in self-contained aquariums, ornamental ponds and fountains without any outflow. For aquariums and small ponds with heavy algae growth, clean the excess algae off the sides and ornaments before adding Algae D-Solv™. This will reduce the amount of decaying organic matter.

FOUNTAINS, SMALL PONDS WITH GOLDFISH AND KOI - Treat only those fountains and ponds which will have no outflow after treatment. High water temperatures cause more rapid natural decay of dead algae which can cause fish distress. WARM WEATHER CAUTION: Before using Algae D-Solv™, make certain that the pond has vigorous aeration, i.e.,

a fountain, waterfall, or aeration device to avoid fish loss due to low oxygen levels. When algae is controlled and removed by the filter or settles to the bottom of the pond, the oxygen level may drop to harmful levels if adequate aeration is not provided. Therefore, when using Algae D-Solv™ during warm weather and high water temperatures, vigorous, 24 hour aeration is required.

ATTENTION: In ponds ensure that water is well aerated via waterfall, fountain or other method to prevent fish loss. Aeration must be continuous. PLEASE NOTE: Not safe for use with snails, shrimp, clams and other crustaceans, or mollusks. Repeat dosage once per week for maintenance.

To figure capacity of fountain or pond;  
Length x Width x Depth = cubic feet x 7.5 = gallons.

Use to treat existing algae growth.

Volume of water to treat	Unit of Measure
360 gallons	1 fl. oz.

**STORAGE AND DISPOSAL:** Do not contaminate water, food or feed by storage and disposal. STORAGE: Keep container closed when not in use. Place leaking or damaged containers in plastic bag and discard in the trash. Mop up spills with clear water. Keep out of reach of children. Do not store near food. CONTAINER HANDLING: Nonrefillable container. Do not reuse or refill this container. Offer for recycling if available or puncture and dispose of in a sanitary landfill or by other procedures approved by state and local authorities.

Manufactured for:
